Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

1. Claims 1-26 are presented for examination.
2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-26 are rejected under 35 U.S.C. § 103 (a) as being unpatentable over **Compton et al. (Compton)** patent no. **6,115,035**, in view of **Agnihotri et al. (Agnihotri)** patent no. **6,608,930**, and **Reilly et al. (Reilly)**, patent no. **5,740,549**.

4. As to claim 1, Compton teaches the invention substantially as claimed, including a method comprising:

automatically searching the Internet for streaming video files (col. 2 lines 11-25; col. 3 lines 33-46; col. 4 lines 30-42);

selecting particular streaming video files based on keywords, said stream video files provided by one or more web sites (col. 3 lines 33-46; col. 4 lines 30-42; col. 5 lines 5-27; search engine inherently use keywords search); and

generating representations of said streaming video files for display as a graphical user interface (col. 4 lines 43-65; col. 7 line 16-27).

However, Compton does not explicitly teach said selecting step using a text search using keywords, nor said streaming video files organized by categories for display.

Agnihotri teaches user can use many text attributes for searching video streams (col. 12 lines 23-67).

Reilly teaches a data viewer displays video files that are organized by categories (figure 10; col. 13 lines 28-48).

It would have been obvious to one of ordinary skill in the Data Processing art at the time of the invention to combine the teachings of Compton, Agnihotri, and Reilly to select particular streaming video files based on a text search using keywords, and display said streaming video files based on categories because it would quickly locate particular video programs and display information based on user viewing preferences..

5. As to claim 2, Compton teaches automatically searching for streaming video files includes automatically searching for predetermined file extensions associated with streaming video files (col. 4 lines 43-65, fig 3).

6. As to claims 3-4, Compton and Reilly teaches automatically searching for streaming video file extensions and for keywords in web sites; organizing said video files into a category based on the keyword used to locate said video file (Compton, col. 4 lines 30-42; Reilly, figure 10; col. 13 lines 28-48).

Art Unit: 2141

7. As to claims 5-7, Compton and Reilly teaches representing a plurality of categories and video files associated with said categories, representing each video file by a thumbnail frame, and playing said video file in response to a user selection of said thumbnail video (Reilly, figure 10, col. 13 line 28 - col. 14 line 16).

8. As to claims 8-10, Compton and Reilly teaches using said keywords as category icons and displaying a plurality of video files associated with each category icon, accessing said video file over the Internet in response to a user selection of said video file, and periodically automatically searching for streaming video files (Reilly, figure 10, col. 13 line 28 - col. 14 line 16).

9. As to claim 24, Compton and Reilly teaches automatically searching the Internet includes automatically transmitting a request to a remote web server for a search engine to perform said Internet search (Compton, col. 4 lines 30-42).

10. Claims 11-23 and 25-26 have similar limitations as claims 1-10 and 24; therefore, they are rejected under the same rationale.

11. In the remarks, applicant argued in substance that

(A) Prior art does not teach a text search using keyword to select particular streaming video files that are provided by one or more Internet web sites.

Art Unit: 2141

As to point (A), Compton teach digital video files are stored in one or more web servers can be distributed via the Internet to website viewers (col. 3 lines 33-46; col. 4 lines 30-42; col. 5 lines 5-27). However, Compton does not explicitly teach said selecting step using a text search using keywords. Agnihotri teaches user can use many text attributes for searching video streams (col. 12 lines 23-67).

It would have been obvious to one of ordinary skill in the Data Processing art at the time of the invention to combine the teachings of Compton and Agnihotri to select particular streaming video files based on a text search using keywords because it would quickly locate particular video.

12. Applicant's arguments filed on 07/12/04 have been fully considered but they are not deemed to be persuasive.

13. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
